Table of Contents

ix Introduction

x Getting Started

▽ Pre-Roll 1

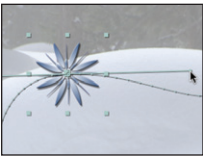

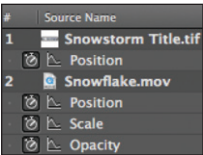

Exploring the After Effects landscape.

1	project structure	6	Timeline panel
2	main application window	7	Layer panel
3	Tools panel	8	Info, Preview, Audio panels
3	Project panel	9	Effects & Presets, Effect Controls
4	importing footage	10	Workspaces
5	Composition panel	12	Adobe Bridge

▽ Lesson 1 – Basic Animation 14

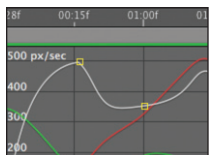

Building your first animation while you learn a typical After Effects workflow.

16	creating folders in the Project panel	23	dragging footage to the Timeline panel
17	creating a new composition	24	editing a keyframe's Bezier handles
17	importing files and folders	25	editing spatial keyframes; motion paths
18	interpreting alpha channels	26	animating Opacity, Scale, and Rotation
19	adding layers to the Comp panel	28	arranging and replacing layers
20	changing the Background Color	30	adding solid layers
20	scrubbing parameter values	30	applying, copying and pasting effects
20	interactively transforming layers	32	rendering
21	animating Position; RAM Preview	33	understanding the comp's alpha channel
22	navigating between keyframes	34	importing layered Photoshop and Illustrator files
22	adding a background layer		

▽ Lesson 2 – Advanced Animation 36

Manipulating keyframes to create more refined animations.

- | | | | |
|----|---------------------------|----|---------------------------|
| 36 | keyframe basics | 47 | Graph Editor Sets |
| 37 | the Work Area | 48 | Separate Dimensions |
| 38 | Anchor Point overview | 52 | Motion Sketch |
| 39 | Pan Behind tool | 53 | Smoother |
| 40 | motion control moves | 54 | Auto-Orient |
| 42 | the Graph Editor | 55 | Motion Blur |
| 43 | Speed versus Value Graphs | 56 | Roving Keyframes |
| 44 | panning and zooming time | 57 | Time-Reverse Keyframes |
| 45 | editing graph curves | 58 | Hold keyframes |
| 46 | easing animations | 60 | time display and timecode |

▽ Lesson 3 – Layer Control 62

Learning how to trim layers and enhance them using Blending Modes and effects.

- | | | | |
|----|--|----|-------------------------|
| 62 | layers and stacking order | 74 | effects and solids |
| 63 | moving layers in time | 75 | effect motion path |
| 64 | trimming layers | 77 | Effects & Presets panel |
| 65 | trimming in the Layer and Footage panels | 77 | searching for effects |
| 66 | slip editing | 78 | Animation Presets |
| 67 | Sequence Layers assistant | 81 | Behavior presets |
| 69 | looping footage | 82 | Layer Styles |
| 70 | image sequences | 84 | Adjustment Layers |
| 71 | changing the frame rate; Time Stretch | 85 | filmic glow |
| 72 | Blending Modes | 86 | non-square pixels |

▽ Lesson 4 – Creating Transparency 88

Using masks, mattes, and stencils to cut out portions of a layer.

- | | | | |
|----|-------------------------------------|----|-------------------------------------|
| 90 | masking tools, creating mask shapes | 93 | Mask Feather |
| 91 | Rounded Rectangle tool | 94 | animating a mask path |
| 92 | Free Transform Points | 95 | creating a vignette; Mask Expansion |
| 92 | masking in the Layer panel | 96 | masking with the Pen tool |

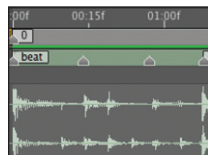

Lesson 4 continued:

96	creating and editing Bezier masks	103	Audio Spectrum effect
97	effecting a masked area	104	Alpha Track Matte
98	controlling mask path interpolation	106	nesting a track matte composite
99	using effects with the mask path	108	Luma Track Matte
100	Mask Modes and multiple masks	109	animating matte layers
101	Mask Opacity	110	Stencil Alpha and Stencil Luma
102	creating and editing RotoBezier masks	113	effects with track mattes and stencils

▽ Lesson 5 – Type and Music 114

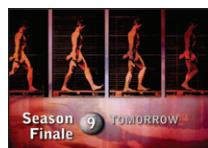

Animating text and working with music are essential to motion graphics design.

115	creating basic text	128	Per-character 3D animators
117	creating Text Animators, Range Selectors	132	separating fields
119	animating text transform properties	133	adding the Wiggly Selector
121	randomizing the order of characters	134	rendering with an alpha channel
121	creating cascading text	135	field rendering
121	working with selection Shapes	136	adding sound to a comp
123	setting the text Anchor Point	137	add comp and layer markers
124	animating by words	138	applying Text Animation Presets
125	title safe areas	139	customizing presets
126	animating text Blur and Tracking	140	saving text animations as presets
127	text on a path	141	editing Photoshop Text layers

▽ Lesson 6 – Parenting and Nesting 142

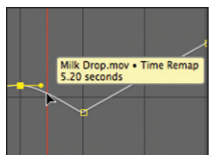

Grouping layers to make them easier to coordinate.

142	parenting, nesting, and expressions defined	153	nesting a common source
144	assigning a parent	155	sizing precomps
145	parenting, opacity, and effects	157	locking panels
146	parenting with null objects	158	precomposing a group of layers
148	using guides	160	precomposing a single layer
149	nesting comps	162	render order explained
150	editing precomps	163	splitting work between comps
152	navigating composition hierarchies	164	using precomposing to re-order
		166	continuously rasterized layers

▽ Lesson 7 – Expressions and Time Games 168

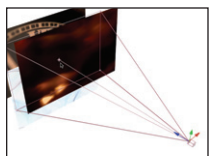

Using expressions and playing with time.

- | | | | |
|-----|---|-----|-------------------------------|
| 170 | using the pick whip to create expressions | 180 | creating a master controller |
| 171 | altering expressions | 181 | converting sound to keyframes |
| 172 | stabilizing shadows | 182 | frame blending |
| 174 | matching value ranges (the linear expression) | 183 | Pixel Motion |
| 176 | looping keyframes | 184 | stop motion tricks |
| 177 | expression tips | 185 | Preserve Frame Rate |
| 178 | the wiggle expression | 186 | creating freeze frames |
| 179 | expression controllers | 187 | Time Remapping |
| 179 | keyframing the wiggle expression | 191 | resources for learning more |

▽ Lesson 8 – 3D Space 192

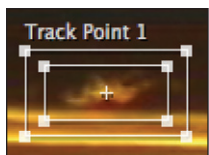

Adding a new dimension to your animations.

- | | | | |
|-----|------------------------------|-----|-----------------------------------|
| 193 | enabling layers for 3D | 202 | moving and animating cameras |
| 194 | moving layers in 3D space | 204 | layer and camera auto-orientation |
| 194 | how layers stack in 3D | 206 | 3D lights |
| 195 | 3D rotation and orientation | 207 | vignettes; animating lights |
| 196 | multiplaning effects | 208 | casting shadows |
| 198 | 3D motion paths | 210 | OpenGL and Fast Previews |
| 199 | multiple views | 212 | Vanishing Point Exchange |
| 200 | camera settings | 214 | Photoshop 3D Layers |
| 201 | customizing 3D views | 216 | adding dimension to stills |
| 201 | camera track and orbit tools | 218 | editing stills for 3D |

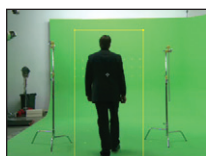

▽ Lesson 9 – Track and Key 220

Tackling several essential skills for creating special effects.

- | | | | |
|-----|-------------------------------------|-----|-----------------------------|
| 222 | creating track points | 225 | fixing bad tracks |
| 223 | important Tracker options | 225 | tracking interlaced footage |
| 224 | applying stabilization | 226 | motion tracking |
| 225 | compensating for stabilized footage | 227 | applying a motion track |

Lesson 9 continued:

228	Radio Waves effect	236	interpolating obscured tracks
230	applying tracks to effect points	237	working with high-definition footage
231	perspective corner pin tracking	238	keying using the Keylight effect
233	Bezier Warp effect	239	improving keyed composites
234	stabilizing Position, Rotation, and Scale	240	creating garbage mattes

▽ Lesson 10 – Paint and Puppet 242

Exploring Paint, the Puppet Tools, and Brainstorm.

243	basic painting	252	transforming strokes
245	erasing strokes	253	Vector Paint effect
245	Paint Channels	254	Puppet Pin tool
246	Paint Blending Modes	255	animating Puppet pins
246	brush duration bar	256	Puppet Overlap tool
247	animating strokes	257	Recording Puppet Animation
248	revealing a layer	257	Puppet Starch tool
249	creating organic textures	258	using Brainstorm
250	tablet settings	260	Brainstorm with keyframes
251	cloning	261	Brainstorm with the Cartoon effect

▽ Lesson 11 – Shape Layers 262

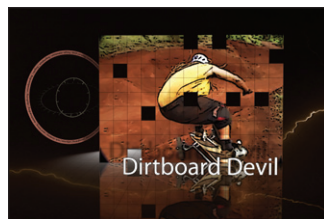

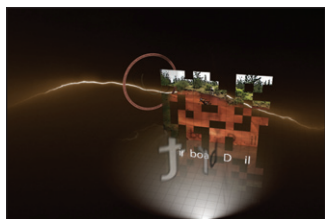

Creating and animating vector-based shapes.

262	creating a Shape Layer	270	Compound Paths
263	shape Stroke and Fill settings	272	Gradients
263	editing shapes	273	shape Pen paths
264	multiple shapes	274	Wiggle Transforms
265	Even-Odd Fill	276	advanced strokes
266	Shape Effects	278	animating a stroke
267	creating buttons	279	Brainstormed shapes
268	Shape Repeater		

▽ Lesson 12 – Final Project 280

Using 3D space plus effects to create a show's opening title.

- | | | | |
|-----|---|-----|---|
| 281 | creating elements; Grid effect | 293 | nesting the Grid comp |
| 282 | creating a gradient | 294 | setting the anchor point for the Skater layer |
| 283 | preserve underlying transparency | 295 | creating a reflection; precomposing |
| 284 | creating the Skater comp | 296 | Lens Blur effect; luma track matte |
| 285 | Block Dissolve effect | 297 | using Collapse Transformations |
| 286 | setting the layer size in Illustrator | 298 | crafting the camera move |
| 287 | copying paths from Illustrator | 300 | creating and animating a title in 3D space |
| 288 | Stroke effect | 302 | adding a light; casting shadows |
| 289 | Tint effect | 303 | final tweaks |
| 290 | rotating in 3D with the wiggle expression | 304 | animating a null object parent in 3D |
| 291 | creating Main Comp 1; audio waveforms | 306 | assembling the final composition |
| 292 | nesting the spinning Radar comp | 307 | inevitable client changes |

▽ Appendix – Rendering 308

Unleashing your creations on the world.

- | | | | |
|-----|---------------------------|-----|------------------------------|
| 308 | The Render Queue (movie) | 311 | rendering for the web |
| 308 | rendering: under the hood | 311 | Flash Video |
| 309 | Render Settings Templates | 312 | Flash project export (XFL) |
| 309 | Output Module Templates | 314 | converting between D1 and DV |
| 310 | rendering movies | 315 | 3:2 Pulldown |
| 310 | rendering sequences | | |
